JUDICIAL NOTES:

28 Jan 20
The two orders - approval of proposal and extending the interlocking orders - shall go as per the drafts filed & signed. They are imposed. The extension order is reasonable and necessary so that the proposal and appeal period can be dealt with.

I have reviewed the proposal w/ counsel. It is fair and reasonable given WISP's circumstances and the plan moving forward. Approx 75% of creditors have approved the proposal. It will benefit the general body of creditors and is put forth in good faith: Kitchener Frame Ltd Re 2012 ONSC 234 and complies w/ s. 60 of the BIA.
